SUITABLE PRINTING TECHNOLOGIES FOR MUGS:

1. DIRECT PRINT WITHOUT FIRING

The technology is suitable for one-colour logos in exact Pantone colour. Direct print is more economic than transfer print. This technology does not allow register print.

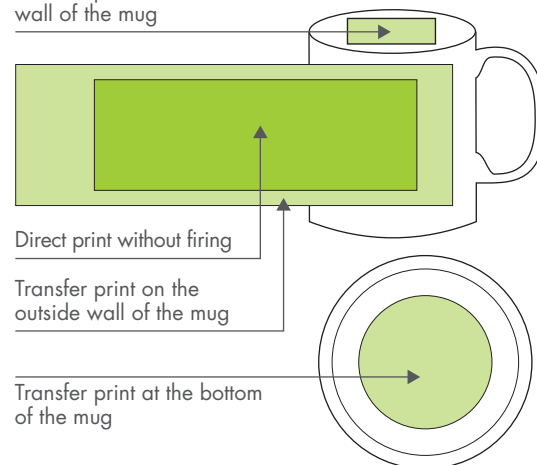

2. TRANSFER PRINT WITH FIRING

Logos can be printed in multiple colours and all round. Moreover, it allows printing inside the mug and at the bottom. There are special transfer colours used. You may be charged extra for exact Pantone colour and it may be necessary to produce a sample. Please contact your sales person for details.

Printing sizes in mm.

LEGENDS FOR PRINTING AREAS

Transfer print on the inside wall of the mug

Direct print without firing

Transfer print on the outside wall of the mug

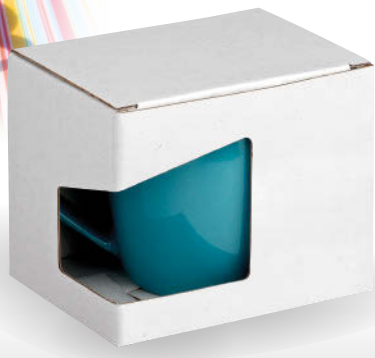

Transfer print at the bottom of the mug
