SOLO
Group | PARIS

Edito

Chère cliente, cher client,

Nous sommes heureux de vous présenter le catalogue SOLO Group 2023.

Dans cette trente-deuxième édition, vous découvrirez entre autres les nouveautés que nous vous proposons pour chaque marque mais aussi les nouvelles couleurs et les nouveaux styles, ainsi que les nouvelles actions que nous mettons en place en matière de **traçabilité**, de **transparence** et de **respect de l'environnement**.

Fidèles à notre ADN, nous travaillons quotidiennement à renforcer nos gammes avec comme exigences principales la **qualité**, le **style** et le **respect** de nos engagements sociaux et environnementaux. Notre objectif est toujours de proposer à nos clients des vêtements et accessoires qui correspondent à leurs goûts et à leurs attentes, et qui valoriseront leur marque ou leur message **durablement** et avantageusement.

Dans cette perspective, SOLO Group a acquis midocean en 2022, leader européen en matière d'objets, accessoires et bagagerie à personnaliser, reconnu pour la qualité de son offre et de ses services. Cette acquisition nous permettra de proposer une **offre complète** de textile et d'objets personnalisables.

C'est donc avec beaucoup de perspectives et de challenges que nos équipes abordent l'année 2023. Pour réussir, elles peuvent compter sur leur passion, leur **professionnalisme** et leur envie de faire toujours plus pour que **nos collections permettent à chacun d'exprimer sa singularité**.

Nous vous remercions pour votre confiance et votre fidélité, moteurs de notre enthousiasme et de notre raison d'être.

Bien sincèrement.

10 nouvelles couleurs entrent cette année dans l'offre. Minérales ou peps, elles complètent une palette déjà très vaste grâce à laquelle chaque message gagnera en personnalité.

NEW FASHION STYLES

SOL'S®

the fair spirit

Toujours attachée à développer des modèles intemporels et dans l'air du temps, SOL'S s'est associée cette année au créateur Pablo Attal et son équipe de designers pour vous proposer une capsule qui ravivera les souvenirs des uns et inspirera les autres. Avec des coupes résolument tendances et des matières généreuses, Pablo nous propose une virée *Urban Wear* inspirée de ses heures passées à chiner des pièces vintage aux 4 coins du monde. Et comme la liberté nous guide, nous avons eu envie de les shooter en pleine nature.

"Trust what you wear,

product, people &
planète

La confiance se gagne et se mérite et elle est essentielle quand on parle de vêtements. Pour que vous puissiez avoir une totale confiance dans nos marques, nous œuvrons tout au long de la fabrication tant sur le respect des personnes que sur la préservation de la terre tout en garantissant la qualité et la longévité de nos produits. L'ensemble de nos engagements est présenté dans notre programme **wear&care** et s'organise autour de **3 piliers : PRODUCT, PEOPLE et PLANET.**

PRODUCT :

Le produit est notre raison d'être. Notre métier est de proposer des vêtements à personnaliser pour que chacun puisse exprimer sa singularité. Notre obligation est de fabriquer des vêtements qualitatifs, conçus, fabriqués et commercialisés avec respect. Nous nous engageons aussi à fabriquer nos produits, dès que c'est possible, dans des matières écoresponsables (coton biologique et/ou polyester recyclé) et à procéder au renouvellement de nos collections en remplaçant les matières conventionnelles par des matières écoresponsables.

PEOPLE :

Derrière tous les produits des marques de SOLO Group, il y a des personnes qui les ont imaginés, conçus, fabriqués, transportés, vendus et il y a aussi celles qui les portent. C'est la raison pour laquelle nous nous engageons à produire nos vêtements et accessoires dans le respect des personnes, de leurs conditions de travail et de leurs droits. Nous nous engageons aussi en aidant différentes associations caritatives à œuvrer à l'amélioration des conditions de vie en dehors du travail.

PLANET :

Nous oeuvrons autant que possible pour la préserver. Notre engagement est de réduire notre impact sur l'environnement et celui de nos produits et de chercher à faire évoluer notre métier vers une consommation et des pratiques durables. Nous nous engageons tout au long de la chaîne de fabrication et de commercialisation pour réduire et optimiser nos consommations énergétiques, supprimer les déchets inutiles et, le cas échéant, les réutiliser.

AWARE
THE TRUE STORY OF RECYCLED FABRICS

La confiance se gagne et se mérite.

C'est la raison pour laquelle nous mettons en place de nombreuses actions pour une plus grande transparence dans notre offre afin que chacun puisse avoir accès à toutes les informations concernant son vêtement.

Cette année, nous débutons donc un programme avec **AWARE**. Grâce à un procédé innovant de traceur incorporé à la fibre, on accède à toutes les informations concernant l'origine et la fabrication du vêtement. Le principe est de créer un passeport numérique complété à chaque étape de la fabrication. Il contient les informations nécessaires à une parfaite information des utilisateurs. On y accède par un QRCode.

Le principe :

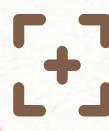

Étape 1 : ACTIVATION

On intègre les traceurs dans la matière brute et on crée le passeport digital du futur produit.

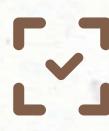

Étape 2 : PRODUCTION

La matière est transformée en vêtement : filage, tissage, confection... à chaque transformation, le passeport est mis à jour et les informations qu'il contient sont vérifiées.

Étape 3 : SCAN

A l'aide d'un scan, on s'assure que les traceurs sont bien présents dans le produit fini.

Étape 4 : AUTHENTIFICATION

Les informations collectées lors de la fabrication permettent l'authentification du produit.

Étape 5 : DIFFUSION

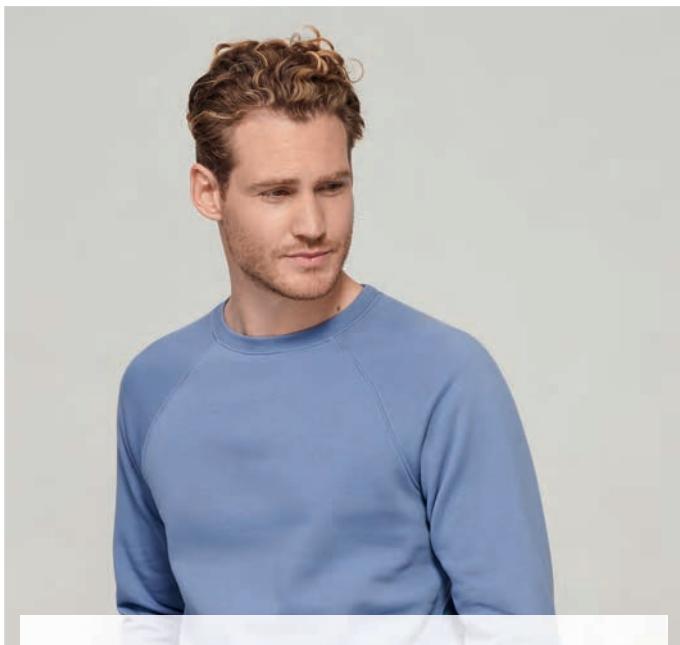

Les produits sont étiquetés avec un QRCode unique permettant un accès direct au passeport numérique du produit.

L'art de la chemise

Comment bien choisir son modèle ?

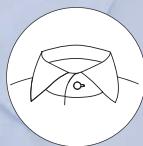

Le COL

Le col français dit « classique »

Le col français est le modèle le plus courant, avec une ouverture du col peu prononcée. Classique, il représente un incontournable, idéal en toutes circonstances et convient à un look à la fois business et décontracté.

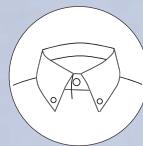

SOL'S BALTIMORE FIT 02922

Le col italien

Assez semblable au col français, il se distingue par son ouverture plus large et à ses pointes biaisées, écartées à la perpendiculaire.

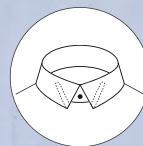

NEOBLU BLAISE MEN 03182

Le col américain dit « boutonné »

La particularité du col américain réside dans les boutons maintenant les pointes à leur extrémité. Celles-ci confèrent une bonne tenue au col.

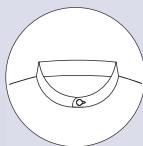

SOL'S BUSINESS MEN 00551

Le col renforcé

Cette option est présente sur certaines de nos chemises. L'ajout de baleines de col au niveau des pointes permet une meilleure tenue et empêche le col de se déformer. Le col renforcé maintient ainsi un style de chemise chic et habillée.

SOL'S BOSTON 16000
SOL'S BRISBANE 16010
SOL'S BEL-AIR 16090

Le col Mao

Le col Mao est un simple pied de col aux angles arrondis. On le distingue facilement car il ne possède pas de rabat.

Les POIGNETS

La patte capucin

La patte capucin se trouve au niveau des poignets. C'est une fente de forme pointue qui donne un fini élégant à la chemise.

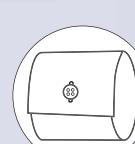

SOL'S BUSINESS WOMEN 00554

Le poignet ajustable

Plus d'aisance.

La palette de matières

Chevron

La matière chevron apporte un côté raffiné à la chemise, une touche d'originalité. Ce tissu est souple et soyeux ce qui facilite le repassage.

Coton micro twill

Textile souple et confortable pour un porter agréable.

Coton piqué

Le piqué de coton permet de créer un look mêlant à la fois élégance et décontraction.

Denim

Connue pour sa robustesse, la toile denim se porte aussi bien de façon corporate que casual. Une matière indémodable et indispensable dans votre vestiaire.

Jersey de coton mercerisé

Le coton mercerisé met en avant la résistance et l'apparence soyeuse du coton, très doux au toucher.

Oxford

Tissu résistant au grain visible. La construction de l'oxford conjuge valeur et tradition.

Popeline lavée

De confort optimal, on retrouve aussi un toucher agréable.

Popeline polycoton

Composée de fibres de polyester et de coton, elle allie la résistance du polyester au confort du coton pour un entretien très facile.

Popeline stretch

Porté léger et agréable. La matière stretch permet plus de liberté dans les mouvements.

Twill

Tissage caractérisé par des lignes diagonales. Souple, soyeux, il donne un rendu élégant et permet une très bonne tenue. Le twill est en outre plus facile à repasser.

Les coupes

Bien choisir sa coupe de chemise

SOL'S BRODY - p 165

Coupe droite

Permet d'être plus à l'aise dans sa chemise. Avec une coupe confort, les flancs de la chemise tombent droit et restent parallèles, sans chercher à suivre la forme naturelle du buste.

Et aussi...

SOL'S BURMA MEN – p 168

SOL'S BALTIMORE FIT - p 158

SOL'S BRISTOL FIT - p 159

SOL'S BOSTON FIT - p 160

SOL'S BRISBANE FIT - p 161

Les coupes

Bien choisir sa coupe de chemise

Coupe slim

Il s'agit d'une chemise qui suit le galbe du buste. C'est la coupe à privilégier pour les morphologies standards. La chemise se porte plutôt avec le premier bouton du col ouvert, pour accentuer le côté athlétique du buste.

SOL'S BLAKE MEN – p 164

Coupe cintée

Coupe incontournable du vestiaire féminin, elle met en valeur la taille des femmes. Plus ample à la poitrine et aux hanches, elle est confortable et chic.

GUIDE Matières

LES FIBRES

COTON PEIGNÉ

Aussi appelé coton longue-fibre, c'est un coton dont les fibres ont subi un peignage, opération qui consiste à éliminer les impuretés et les fibres courtes, ce qui rend le tissu plus lisse et plus résistant. C'est la matière idéale pour l'impression numérique.

ÉLASTHANNE

L'élasthanne est un fil très extensible qui, mélangé au coton, procure une plus grande élasticité et donc un meilleur confort.

VISCOSE

La viscose est une fibre obtenue à partir de cellulose issue de végétaux. Visuellement très proche de la soie, cette matière est beaucoup plus résistante. On la trouve souvent dans des pulls ou des costumes.

LES MAILLES

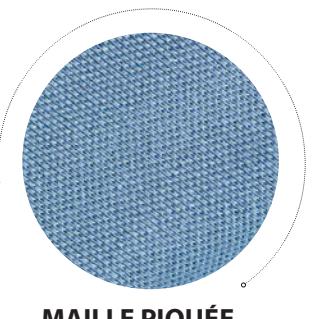

JERSEY

Tricotage de base qui donne un tissu doux, résistant et souple et dont la surface, parfaitement lisse, facilite tous les types de marquage.

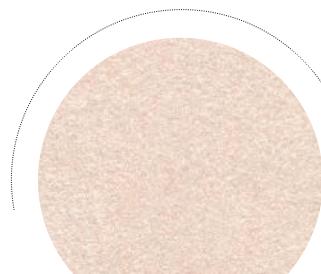

MILANO

Le tissu Milano est un jersey interlock, souple avec une excellente tenue. L'endroit a l'aspect du jersey et l'envers est côtelé. Il est idéal pour la confection des robes ou jupes.

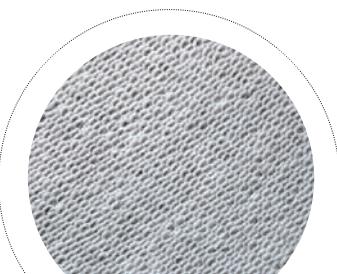

MAILLE PIQUÉE

Tissu très confortable dont la structure, en nid d'abeille, est principalement utilisée pour la confection des polos. Notre maille piquée, qui a une surface particulièrement douce grâce à son coton peigné, permet tous les types de marquage.

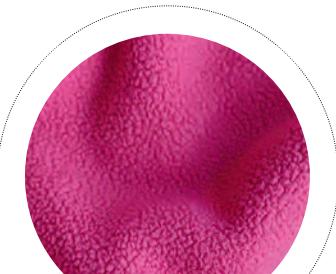

MOLLETON

Tricot lourd généralement en coton-polyester, sa face intérieure est grattée, ce qui procure chaleur et confort. On peut le tricoter avec 3 fils, ce qui permet d'obtenir plus de gonflant et de meilleurs résultats d'impression.

FRENCH TERRY

Tricot caractérisé par une surface plane et une surface présentant de larges bouclettes. En contact avec la peau, la surface bouclée contribue à une meilleure absorption de l'humidité renforçant ainsi le confort à l'usage.

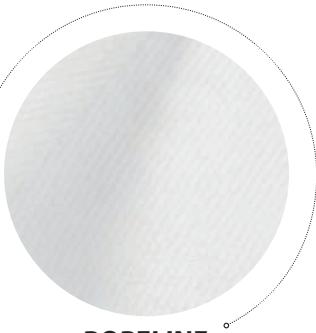

POLAIRE

Tricot en polyester gratté de manière très dense sur les 2 faces et représentant l'aspect d'un molleton. Toutes nos polaires ont un traitement anti-pilling qui évitera la formation des bouloches provoquées par les frottements.

RINGSPUN

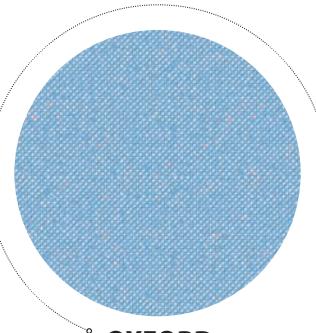

Nos tee-shirts sont tricotés avec des fils Ringspun de qualité supérieure. Ce fil permet d'obtenir un toucher plus doux : le vêtement est plus agréable à porter et le rendu d'impression est parfait. C'est l'alternative « douceur » européenne de qualité, face aux tricotages américains à base de coton open-end plus lâches et plus rustiques.

LES TISSÉS

POPELINE

La popeline est un tissage qui présente une côte fine et serrée. Ce tissu souple est agréable à porter. Elle est le plus souvent utilisée pour confectionner des chemises.

OXFORD

Tissu doux et très solide employé pour la fabrication des chemises et qui a les fils de chaîne colorés et les fils de trame blancs, ce qui accentue l'effet de tressage.

TWILL

Tissu de coton ou de mélange de coton, à armure Sergé et fines côtes obliques.

DENIM

Matière qualitative grâce à son tissage serré. Le denim est généralement composé d'un fil de chaîne bleu et d'une trame écru ou blanche. Visuellement reconnaissable par son armure sergé formant des diagonales.

TOILE

Aussi appelée cretonne, c'est un tissu résistant à trame serrée. Généralement constitué de fils de coton avec une texture carrée, il est parfait pour la confection de sacs.

SOFTSHELL

Matière 3 couches : l'extérieur est de type néoprène avec de l'élasthanne, l'intérieur est en micropolaire et entre ces 2 matières, il y a une membrane technique. Cette association permet à ce tissu de conserver la chaleur, d'être déperlant, d'évacuer l'humidité et d'offrir une grande protection contre le vent.
